

What is a Microboard?

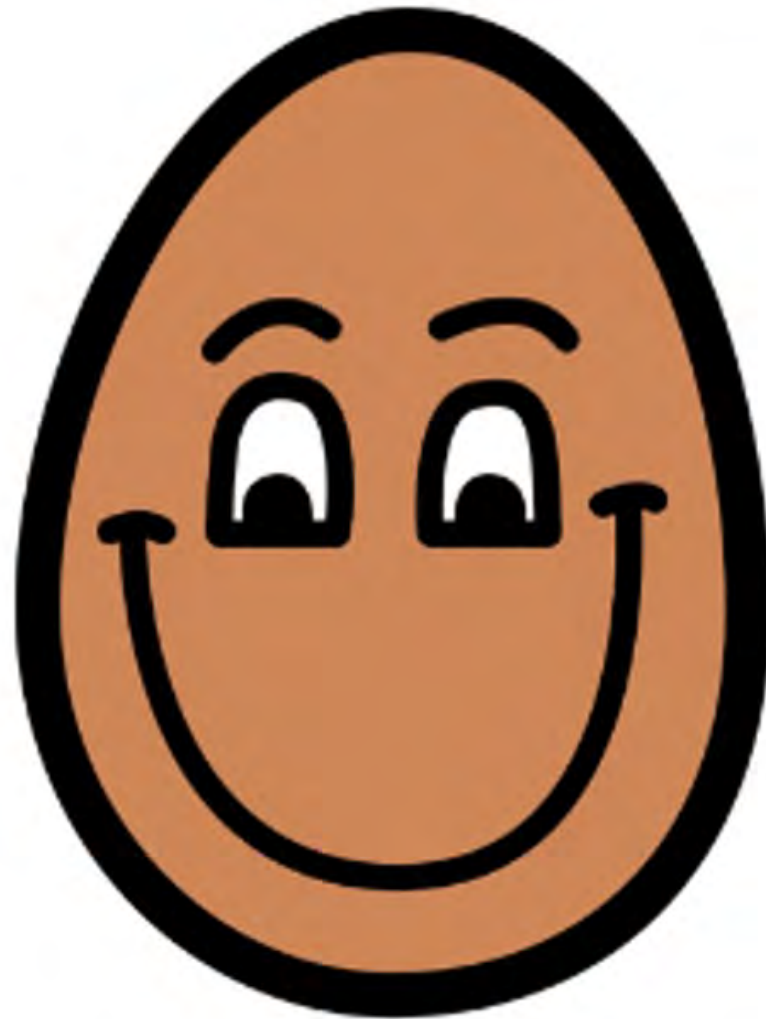

A microboard is a group of people.

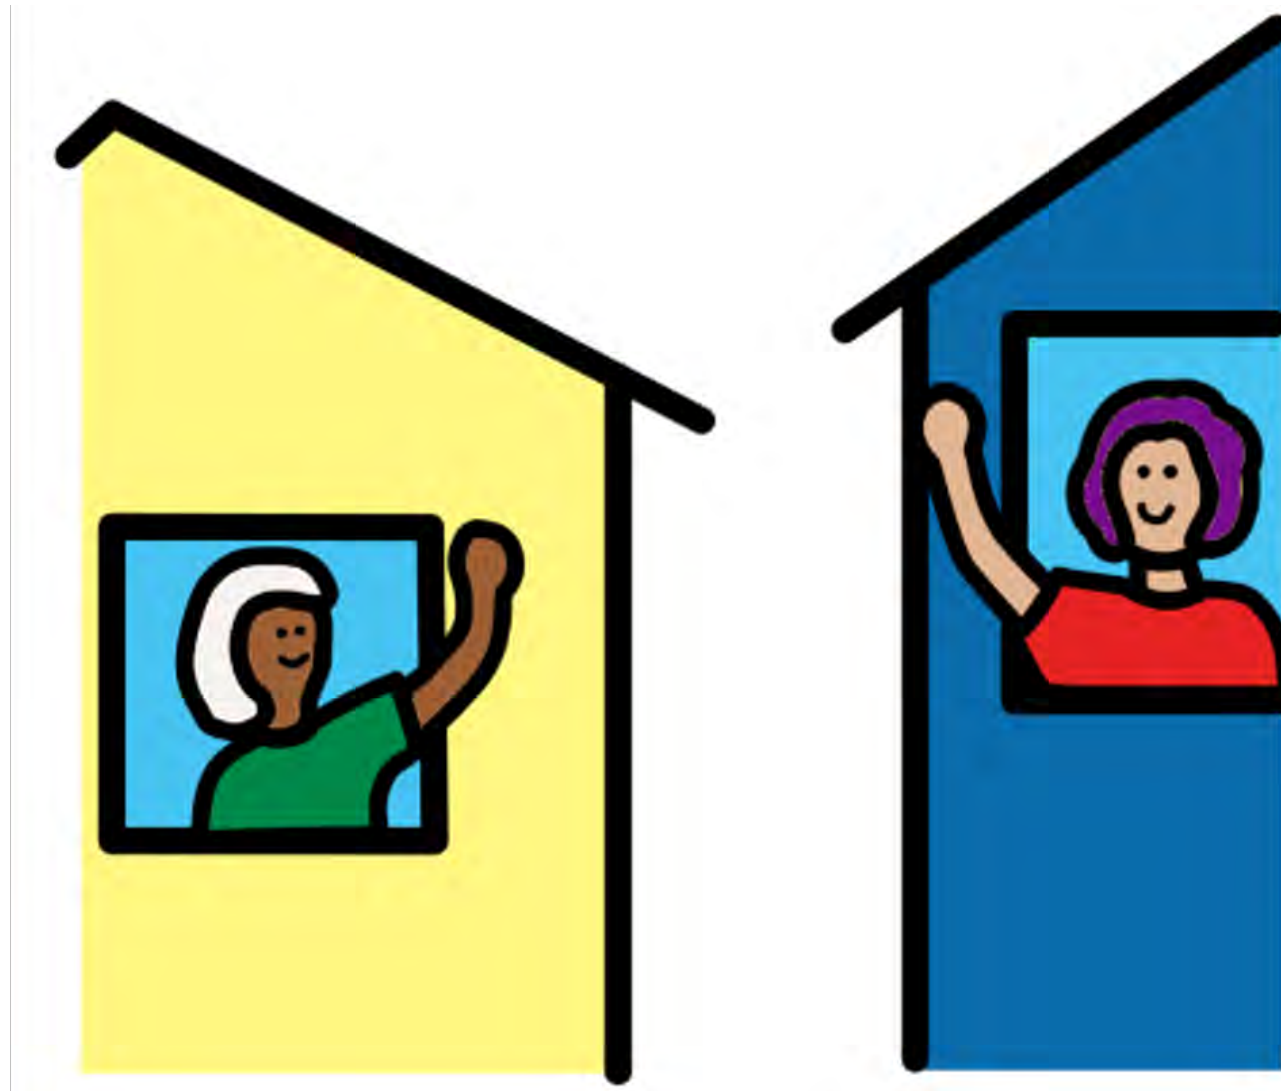

Your family members can be on your microboard.

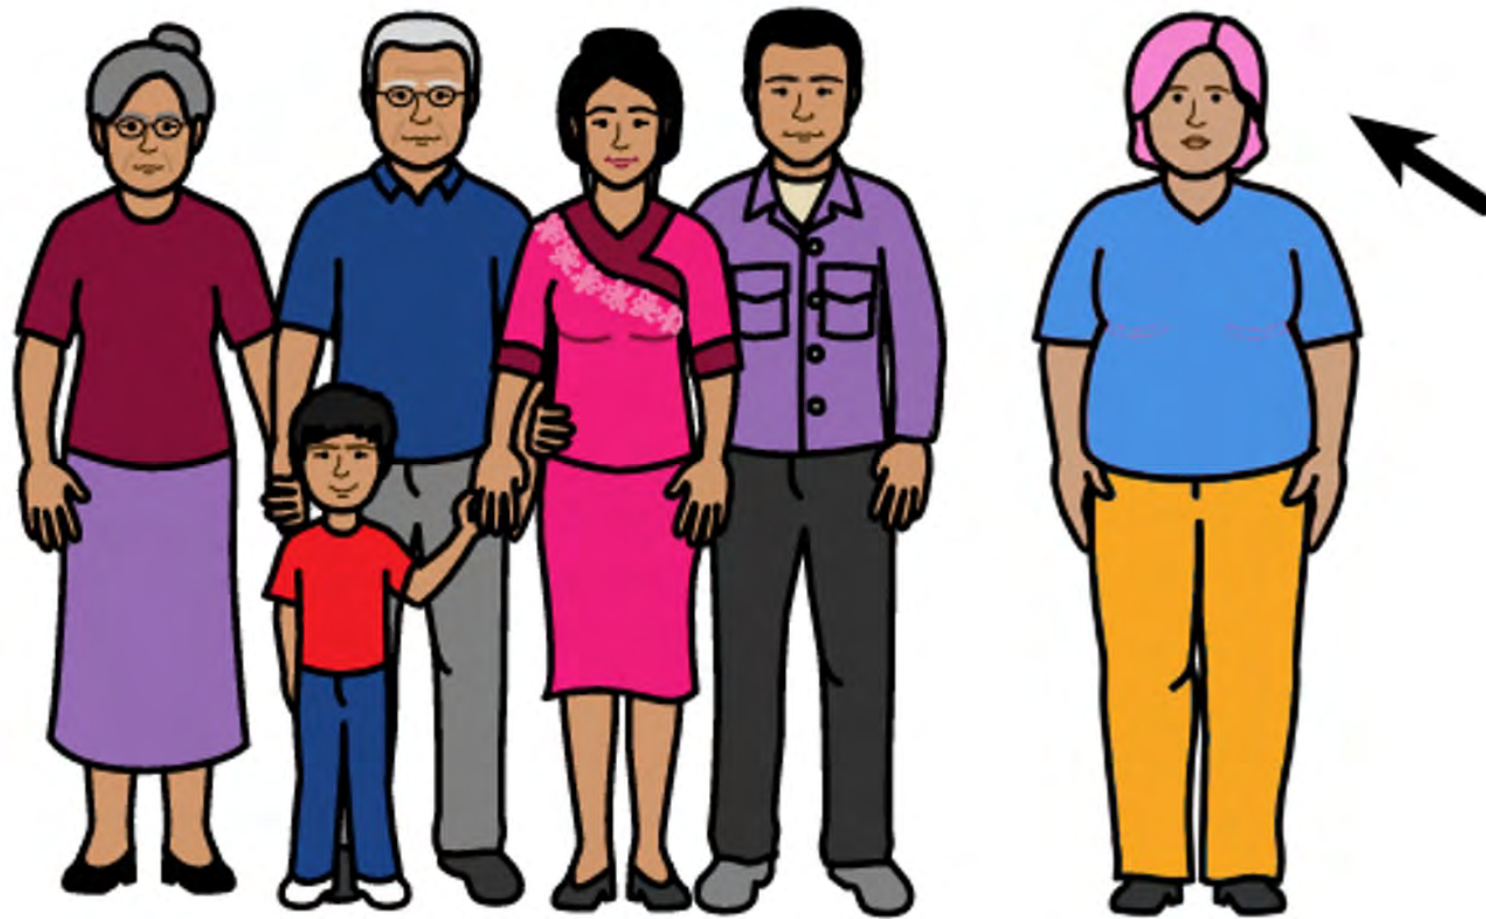

Your friends can be on your microboard.

Other people you like can be on your microboard.

Your neighbour can be on your microboard.

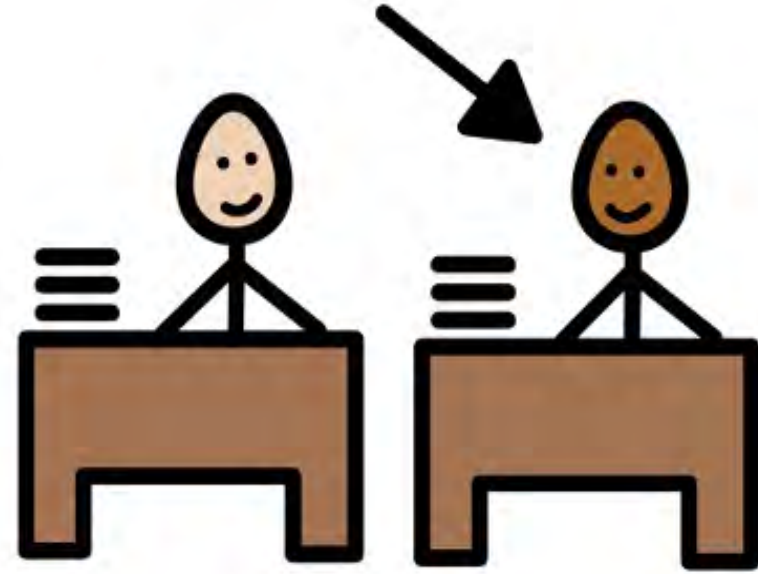

A family friend can be on your microboard.

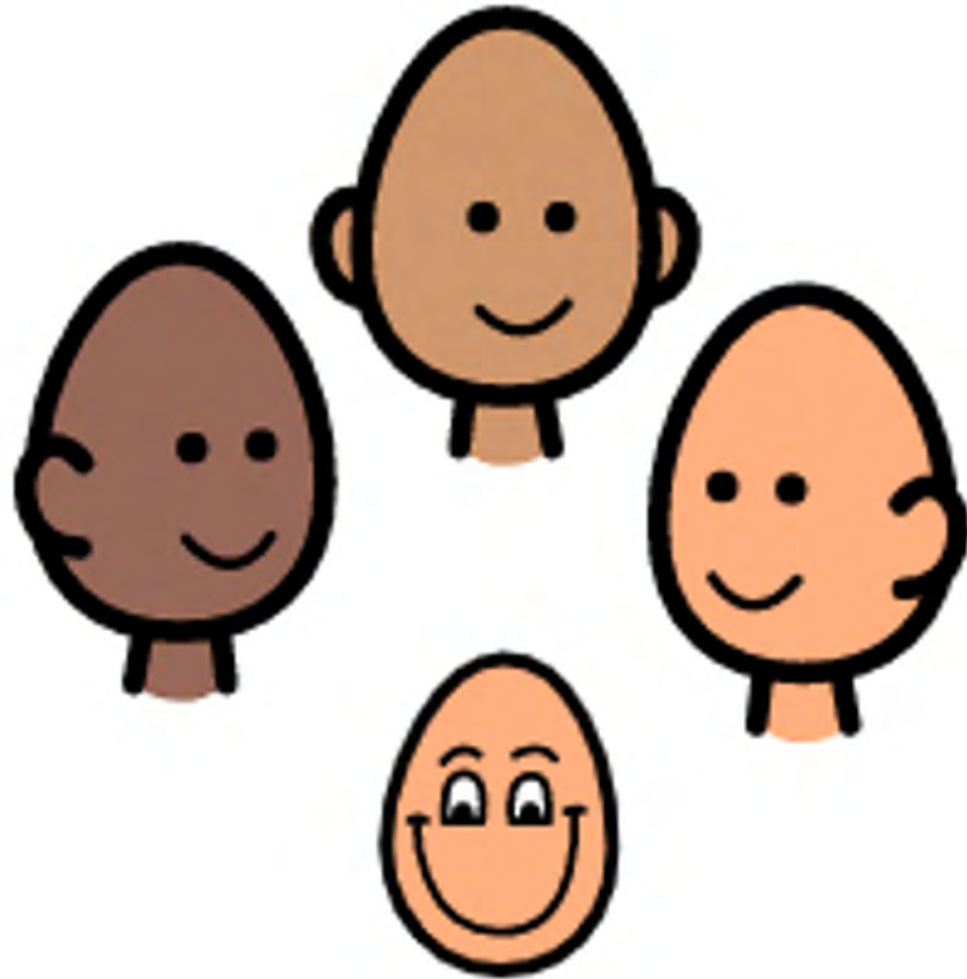

Someone who used to work with you can be on your microboard.

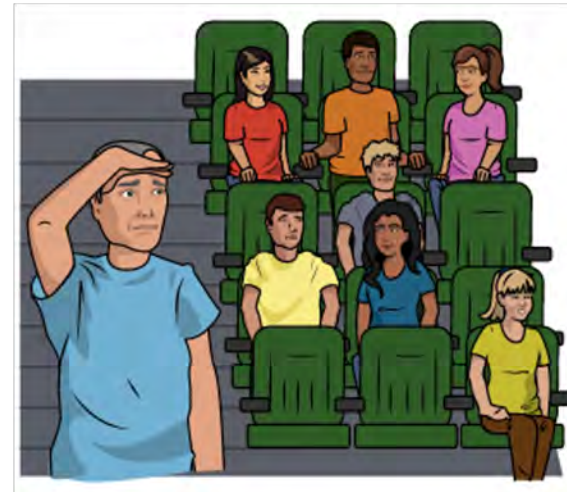

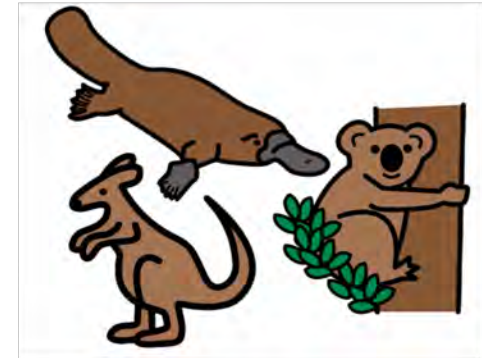

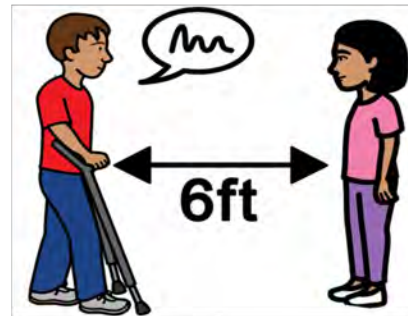

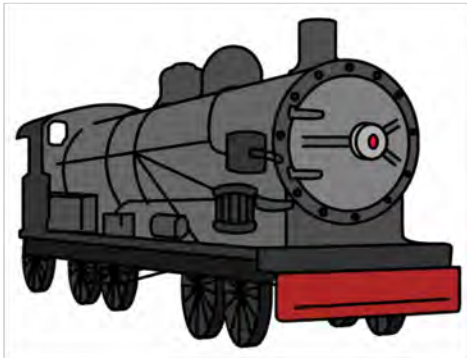

Someone you want to get to know better can be on your microboard.

A microboard is a group of people you like.

People on your microboard spend time with you.

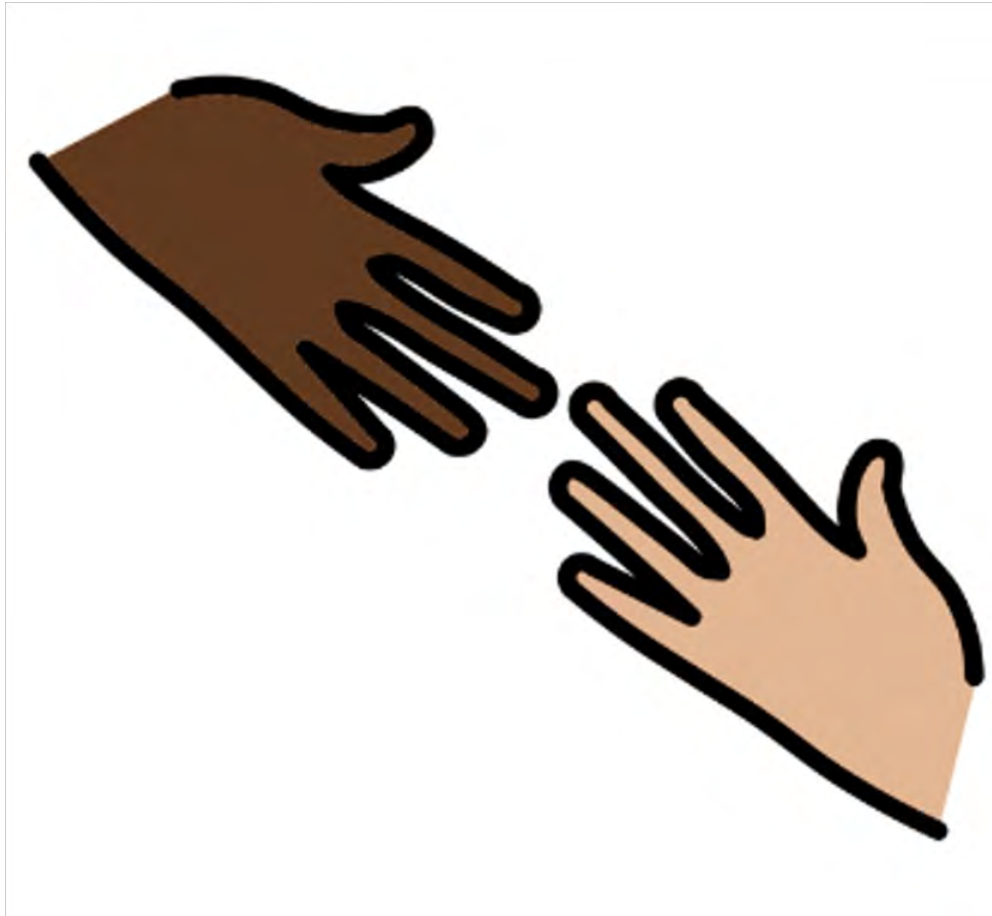

You can tell your microboard about the things you like.

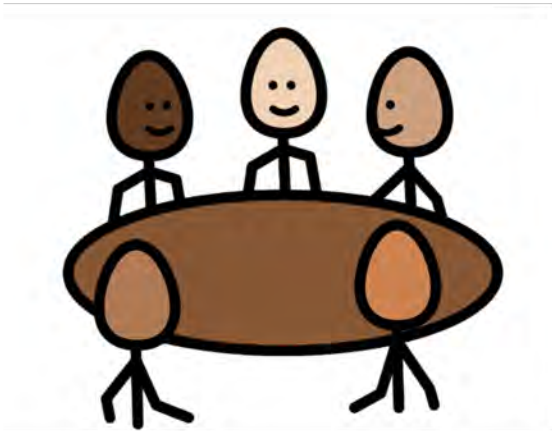

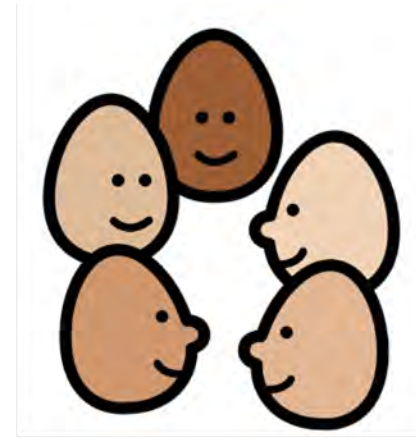

Your microboard can help you to do the things you want to do.

You can tell your microboard about things you don't like.

You can ask your microboard for help.

Lots of people have microboards.

There are many microboards around the world.

There are microboards in Australia.

# Microboards

Australia | a board just for me

Microboards Australia can help you get a microboard.
